A PREMIER'S DANGER.

COPENHAGEN, Oct. 22.—A desperate attempt was made at five o'clock yesterday afternoon to assassinate Premier Estrup by a youth named Rasmussen, a compositor. Rasmussen fired two shots from a revolver at the Premier, but when in the act of firing the third the would-be assassin was seized by a couple of detectives. A number of whom have constantly been in attendance on the Premier for some time past, owing to the extreme hatred of the populace toward him, and by the other members of the Cabinet. Rasmussen was hurriedly taken to prison, the officers fearing that an attempt at a rescue would be made. The first shot struck on the left arm of the Premier's coat and glanced off. The second shot went wide of the mark. Rasmussen declares that his motives were political, as Herr Estrup's conduct in the present controversy in Denmark is inimical to the State.

THE EASTERN TROUBLES.
CONSTANTINOPLE, Oct. 22.—The Porte has decided not to send troops into Eastern Roumelia without a European mandate. The various diplomats in this city consider the aspect of the situation as very serious, and fear that the Turkish officials, the discussion of the matter by the ambassadors, and the action of Serbia may impart a European character to the Bulgarian question. The Powers desire to localize the Turkish, however, will not admit that it is only a local question.

The Turkish frigate Iskender has proceeded to the island of Crete with an armed force, in view of the threatened outbreak in that island.

The garrison at Philippopolis, numbering 2,000 men and 1,000 Macedonian volunteers, have started for the Serbian frontier. They will go by rail to Temisvar and travel the rest of the way on foot. Several divisions of the army assembled on the Roumelian frontier have been ordered to fall back to resist the Servians who on Monday advanced to Argor. The Bulgarian Government depends upon the Powers to prevent Turkey from becoming hostile and urges an alliance between Bulgaria and Turkey as the best guarantee for the preservation of the Roumelian Empire.

DILKE'S IDEAS.
LONDON, Oct. 22.—Sir Charles Dilke speaking Tuesday evening said that while the Liberals favored unity between the colonies and the mother country they did not agree with the principles of federation, which, in their opinion, would be impracticable. They believed that a separate army for the colonies would be better than the present system. The speaker dwelt upon the importance of increasing British influence in Burma with the view of securing there a field for future trade. He spoke of the great benefits of trade to be derived from a good understanding with China, and said that an alliance with China was worth alliance with a dozen countries like Turkey. He advocated a separate army for India in order to avoid loss of lives by sickness and greater dependence upon volunteers in time of war.

PREPARING TO WHIP THEM.
LONDON, Oct. 22.—The authorities of the Woolwich Arsenal have been ordered to supply 10,000 rounds of cartridges and 10,000 rifles for the expedition to be sent against King Theban of Burma.

Two steamers have left Rangoon for Mandalay. The latest will arrive there on November 10. They will bring away two hundred European soldiers in Burma. It is believed that the Bombay Trading Company's officers will be able to protect themselves until British troops arrive. Many of the officers have already been recalled.

THE CASE.
LONDON, Oct. 22.—The case of Louis Riel, the leader of the half-breed insurrection in the Northwest Territory of Canada, was under consideration by the Privy Council yesterday. Mr. Francis Henry Jenks, the prisoner's English counsel, stated the prisoner's side of the case, and made a long argument on behalf of his client. After hearing Riel's counsel, the Judge thought it was not necessary to hear the other side of the case. Judgment will be pronounced to-day. The decision will probably be against Riel.

LINCOLN, Neb., Oct. 22.—Thomas Whitely, a traveling man from St. Louis, was married last Saturday at Beatrice and came to this city Tuesday afternoon. Yesterday, as he and his wife had not been seen since they retired the night before, their room was broken open. Both were found with a woman who had been with them. The woman may possibly recover, but the man's case is considered hopeless. They are supposed to have attempted suicide.

A WIFE-MURDERER LYCHED.
MEMPHIS, Tenn., Oct. 22.—A mob of forty masked and armed men surrounded the jail at Holly Springs before daylight yesterday morning, overpowered the guard, broke open the cell of Robert Doxey, the wife-murderer, and hanged him to a tree about one mile northwest of town.

THE PRISON CONGRESS.

Proceedings of the Last Day's Session—The Next Meeting to Be Held in the South.

DETROIT, Mich., Oct. 22.—The last day's session of the Prison Congress was opened yesterday with prayer by Rev. Dr. Wallace Radcliffe, of Detroit. President Hayes announced from the Board of Officers and Directors that the next meeting of the association will be held in Atlanta, Ga. Charleston T. Lewis, of New York, reported resolutions expressing the results of the press at congress; returning thanks for their hospitable reception; recommending the general education of the youth of both sexes in productive industry as a preventive of crime; advising changes in the laws and their execution for speedy and equitable trials; demanding that Wendell be empowered to appoint or discharge their subordinates, affirming the principles of the reformation of a large percentage of criminals; calling for radical changes in county jails as necessary for the prevention of the increase of crime; recommending in county prisons in charge of female officials inducing prison labor, which should be solely a reformatory and disciplinary measure.

During the session, Charles E. Felton, of Chicago, read an address on "Tramps and Drunkards." Ex-President Hayes was called on to talk of county jails, but excused himself by introducing General R. Brinkert, of Ohio, who explained the various phases of the improvement of the county jails in Ohio. Judge Francis Wayland, of Connecticut, told of the method of dealing with vagrants in London, and described the new English system of dealing with the idle and children to go out alone after night. During the morning there was a women's meeting held to consider reformatory work for women.

In the afternoon a meeting of Wardens of Prisons was held, at which subjects pertaining to prison discipline, etc., were discussed. The question of the relation of education to crime came up, and it was held that there was more of skilled hands than skilled brains. The afternoon topic of the congress was "Juvenile Reformatories." C. A. Guven, of the Lansing Reform School, read a paper in which he said that the boys should be led to higher purposes in life. J. C. Little, of the Lancaster (Pa.) Reform School, read a paper on the advantages of the cottage system, under which barred windows are done away with, and the boys are placed in cottages, with no other place to look after. The subject of "Prisoners' Aid Associations" was next taken up, and after discussing the advisability of furnishing convicts with a small sum of money, a committee of three to examine into the matter and report at the next meeting was appointed.

The closing session of the Congress was held last evening. General R. Brinkert read a paper on "United States Prisons and Prisoners," which was discussed. John P. Altgeld, of Chicago, read a paper on "Unnecessary Imprisonment." In the meeting of the board of directors of the Earl of Curzon, Lord Lieutenant of Ireland, Sir Walter Crofton, Sir Edmund P. Duane, T. B. Baker, Hon. Frederic Hill, of England, and Ferdinand Desportes, of France, were elected honorary members of the association. Charles Dudley Warner was elected a Vice-President, and ex-Governor Bullock, of Georgia, was elected a director. The chair of the officers was elected. The next meeting will be held at Atlanta, Ga.

Women Honored to Vote.
NEW YORK, Oct. 22.—The recent registration of two Brooklyn ladies with the avowed purpose of casting their votes for the Democratic ticket in November is only a hint of what is coming in the same direction on the next election day. A proclamation has gone forth to the women of New York under the signature of Mrs. Lillian Deveraux Blake, assuring them that they have the legal right to vote for State and municipal officers, urging them not to be intimidated and reminding them of the importance of the coming election. There are a number of women who declare that they will go to the polls as registered voters. In several places, the women are trying to intimidate the women and get them to stay at home. They threaten to arrest and lock up every woman who votes.

Conversion of Believers in Faith Cure.
PHILADELPHIA, Oct. 22.—About 125 men and women whose religious feeling has carried them to a belief in Divine cure answered the call for a Christian Convention which assembled in Institute Hall to commemorate upon the power of the Holy Spirit to arrest disease. Rev. Dr. J. W. Clift, of this city, was made chairman. Carrie F. Judd, of Buffalo, gave an address. Mrs. Baxter, of the Faith Home, in London, was present, and desired to reassure her audience of the power of the Divine Ruler to eradicate disease through faith.

DISASTERS OF A DAY.

The Boiler in a Saw-Mill at Ridgeville, S. C., Bursts, Killing Seven Persons.

Four Miners Killed in a Pennsylvania Colliery by an Explosion of Fire-Damp.

A Building Collapses in Chicago, Killing One Man and Wounding Several—Other Mishaps.

KILLED BY A BURSTING BOILER.

RIIDGEVILLE, S. C., Oct. 22.—A boiler exploded Tuesday in J. A. Quackenbush's saw-mill, killing seven persons. The explosion was caused by firing with heavy fat lightwood butts, causing steam to generate faster than the safety-valve would relieve it. Portions of the boiler weighing several hundred pounds were thrown three hundred yards. The dome has not been found. Pieces of machinery were thrown in every direction. The men were thrown from fifty to seventy-five yards, and were stripped of every article of clothing. Even their shoes were blown from their feet.

DEATH IN A MINE.

WILKESBARRE, Pa., Oct. 22.—For months past a danger signal has been conspicuously posted at the entrance to an abandoned section of No. 2 slope in the Delaware & Hudson coal mine. Yesterday Peter Zelensky, an ignorant Pole prompted by curiosity, went to the entrance of the mine, and exposed lamp burning in his hat. Immediately after his disappearance in the dark chamber there was a cannon-like roar, a sweep of wind which extinguished all the subterranean lights, and a reverberation that dismantled the hoisting machinery. The timber-caps crumbled under the weakening roof, portions of which fell on the entombed miners. Then came a second explosion, fiercer, louder and more death-dealing than the first. Its detonation was heard for miles around. Instantly following the shock a sheet of flame swept through the slope, up the shaft, and above the dome of the mine. Beams and shingles were carried away from the breaker and floated to an altitude of four hundred feet. After two or three mighty spurts, like the steam and lighted explosion of a gas well, the red blast subsided into the shaft whence it had come and soon expired.

The two shocks, so suggestive of calamity in the mining regions, aroused the neighborhood to prompt action. A descent was made into the slope by a rescuing party, and the dead and dying were raised to the surface by the assistance of a crude hoist. The dead number three, and the wounded fifteen. The wounded are fearfully burned, besides having breathed the gas and flames. Nearly all of them are expected to die. Zelensky was not killed. He escaped with some every stitch of clothing from his body, leaving his boots intact. His hair was burned off to the scalp and he was blown thirty feet away. He will live. One man was blown two hundred feet from where he was working and instantly killed. The shaft at which the explosion took place is one of the largest operated by the Delaware & Hudson Company. The average daily output of coal is from 350 to 400 car-loads. Over four hundred men and boys are employed in preparing this coal for market.

At eight o'clock last evening another victim, Thomas Collins, died of his injuries. Collins was a member of the Democratic County Committee. Superintendent E. L. Peckens stated that every precaution had been taken to keep the miners away from the fatal opening.

KILLED BY A FALLING BUILDING.
CHICAGO, Oct. 22.—The two-story frame residence, 1,325 Wabash avenue, occupied by DeWitt Kimball, collapsed yesterday afternoon at three o'clock, and a total wreck of lumber and iron was left. The house had been built on a sandy condition of the soil there could be no solid foundation. Struck. Without any warning the structure fell to pieces, burying four people, one of whom was taken out dead. A Mrs. Hope, who was in the house, escaped through a window with a few scratches. Mr. Kimball was badly hurt. The others were badly wounded.

CHURCHILL BY FALLING DRUMHEAD.
LOWELL, Mass., Oct. 22.—At the reservoir, in Contreville, yesterday morning, at the city water-works five drunks fell, killing Owen Elmer, a laborer, and seriously wounding three others. The men were injured after James P. Roberts, City Engineer; Patrick Mongowan, John Royal and William Clew. The latter received only a scalp wound.

Convict Fled as a Witness.
NEW YORK, Oct. 22.—James D. Fish, the ex-President of the Marine Bank, arrived here last night from Auburn Prison to be a witness to-day in the case against Ward. He was accompanied by a prison warden and his youngest son, James D. Fish, Jr. The once distinguished millionaire banker looked worn and sad. His clothes were of the ordinary sort, given to convicts on arrival, and on his feet were the regulation prison brogans. His face is much changed by the absence of beard.

A Mob Burns a Murderer.
WASHINGTON, Oct. 22.—Late news from Pike County regarding the horrible death of Churchill, the murderer of Dennis Brooks, states that since the murder the prisoner had been confined in an old wooden building. Tuesday night a mob collected about the building, and after saturating the lower part of it with kerosene, set fire to it. Churchill appeared at a window and piteously begged the mob to shoot him, but the flames soon reduced the building and their victim to ashes.

Carriage-Builders' Convention.
BOSTON, Mass., Oct. 22.—At the session yesterday of the Carriage-Builders' National Convention, Louis Emerson, of Ohio, was elected President and Clem Studebaker, of Indiana, first Vice-President. The report of the Executive Committee recommended a reduction of the output, and urged that the Forestry Commission be shown the necessity of planting the kinds of trees used in carriage building.

She Could Not Bear Disgrace.
PLEASANTON, Kan., Oct. 22.—Reed Johnson brutally assaulted the daughter of James Martin, near Trading Post, eight miles from here, last Saturday night, and the young woman afterward shot herself. The girl is still alive, but will probably die. Johnson is in jail at Mound City, and a guard is stationed there to prevent a lynching. Both Johnson and his victim stood high in the community.

ANTI-CHINESE AGITATION.

Report of Governor Squire, of Washington Territory, on the Subject.

WASHINGTON, Oct. 22.—Governor Watson Squire, of Washington Territory, has sent a special report to the Secretary of the Interior upon the anti-Chinese agitation in the Territory in which he says that the principal point where violent demonstrations have been made is Seattle, but that there has been a great deal of agitation at Tacoma. The persons accused of killing the Chinese hop-pickers near Seattle have been arrested, and one is now in jail under indictment for murder in the first degree. Strong efforts have been made to intimidate Chinese employes at the Franklin and Newcastle coal mines, and many of the Chinese are leaving. These places are now quiet, but the coal miners are anxious in regard to the safety of their property.

The Chinese Consul at San Francisco was informed that the persons accused of murdering Chinese had been arrested. The Governor says that it has been his desire to maintain order without the employment of troops, and a strong organization of the better class of citizens at Seattle has arrayed itself under the law for the preservation of peace. The agitation has been improving from day to day, and it is concluded that no necessity exists for calling upon the military. If serious trouble arises the Secretary will be notified by telegraph, and if troops should be required there is an ample force of volunteer militia, within a few hours of the disturbed locality.

Protecting the Monument.
WASHINGTON, Oct. 22.—The lightning-rod tips, and the rods to which they are to be fixed, intended to protect the Washington monument from lightning, have arrived from Philadelphia, where they were made, and are now being placed in position. The construction of scaffolding around the roof was found so that it would be in readiness when the rods should arrive, and there will be no delay in the work, except that caused by bad weather. The apparatus constructed in Philadelphia consists of 74 feet of 144-gauge copper rod, 25 feet of 12-gauge rod, and 25 feet of 12-gauge rod, to extend along the top corners of the roof, and 172 lightning-rod points. The latter are made of copper and gold-plated, with the exception of a half inch at the end, which is of platinum. These 172 points, together with those erected immediately after the monument was struck, make 300 points in all, nearly covering the top of the monument. In the opinion of the scientist who made the recommendations, these precautions will protect the monument from lightning in the future.

Assassinated His Sister.
MADISON, Ala., Oct. 22.—The town is excited over a cold-blooded murder committed here yesterday by a fourteen-year-old negro boy, Henry Huntley, the boy's name, and his victim was his sister, twenty years old. A few days ago she chastised him for some misconduct, and he vowed he would kill her. Yesterday morning he shot her in the back, and she died where she would have to pass, and when she came in sight he shot her in the abdomen, killing her almost instantly. He then put the gun in his pocket, and went to his home, and finding her dead, walked leisurely away. There were several witnesses, but they were so stunned by the sight that they did not offer to detain him. He was pursued later, however, caught, brought back and placed in jail.

The Druggists.
PHILADELPHIA, Oct. 22.—The National Wholesale Druggists' Association met here yesterday and elected M. N. Kline, of Philadelphia, President; S. M. Strong, of Cleveland, Treasurer; and A. R. Merriman, of Minneapolis, Secretary. Letters were read from President Cleveland, Secretary Manning and Congressmen Samuel J. Randall acknowledging the receipt of communications regarding the use of alcohol used in pharmaceutical preparations. The President writes that the matter will receive his early attention. Secretary Manning promises to lay the matter before the proper committee, and Mr. Randall suggests that a committee be sent to Washington to agitate the question.

Found an Infernal Machine.
ST. LOUIS, Mo., Oct. 22.—The police discovered yesterday an infernal machine on the Washington avenue car tracks, on the corner of Compton avenue and Morgan street. The machine was a piece of two inch gas-pipe, two feet long, and filled with gunpowder. At either end was affixed a gun cap, so arranged as to connect with the powder within, and in the center of the pipe a rod was inserted, which was laid along the groove in the track, and so arranged that the wheel of a car would strike the cap as it went over it. The machine was now at the police headquarters.

QUEBEC, Oct. 22.—It is stated that the Pope has signified his intention of placing the faculty of theology of the Laval University at Quebec upon the same footing as that of the faculty of the American College at Rome. It is the desire of His Holiness to have Laval the principal university in America. All the ecclesiastics of North America, instead of going to Rome to complete their theological studies, will hereafter receive the same degree at Laval.

The Walkup Trial.
EMORIA, Kan., Oct. 22.—Three druggists testified in the Walkup trial yesterday that they sold Mrs. Walkup arsenic—in one case four grains, which Mrs. Walkup said she wanted to use as a cosmetic. Testimony was introduced to show that Mrs. Walkup, during his illness, attempted to commit suicide by a letter from his daughter, Mrs. Hancy Hand, severely criticizing him for having married Minnie Wallace.

PRESIDENT CLEVELAND made the following appointments yesterday: William Hill, of Illinois, to be consul of United States at Port Sarria; Robert P. Waring to be assayer and melter of the United States assay office, at Charlotte, North Carolina; George S. Savage to be collector of customs for the district of Cherry-stone, Virginia; L. Q. Washington, of the District of Columbia, to be commissioner to examine a section of railroad constructed by the Northern Pacific Railroad company; S. J. Anderson to be collector of customs at Portland, Maine.

A TELEGRAM from Cincinnati to the St. Louis Post-Dispatch of last evening, conveys the following information: "The canvass of the vote of Hamilton county was completed this morning, and the total footings (unofficial) excluding precinct E of the eighteenth ward, show that Hooley received 34,527, and Forsaker 33,928, a majority of 599 for Hooley. The highest vote received by a republican senator was 99 less than the lowest of the democratic list, and 370 less than the highest. The vote for representative is still lower, but the footings have not been completed. The democratic officers are elected, except Kuhl for commissioner. If the missing precinct is counted it will increase the democratic majority about 100."

brakeman on the Wabash, named
Wilson, met a terrible death at Litch-
field. He fell from the top of freight
train number 98 and was run over by
several cars. His body was almost
entirely cut to pieces and death was
instantaneous. Wilson was a son of
the village blacksmith at Morrisville,
and his friends speak highly of his
many good traits. His remains were
taken to Morrisville for interment.
A young wife to whom he had been
married but a month, is left to mourn
his untimely death.

—"Buttons" will be produced at
the opera house on Monday evening
by Mr. and Mrs. Tony Hart, sup-
ported by a fine company. Tony
until recently was a member of the
well known team of Harrigan & Hart,
and as a comedian has few equals.
"Buttons" is one of these adaptations
that catches every one from the op-
ing to the close of the entertainment
and is full of bright specialties and
funny sayings, and affords Mr. and
Mrs. Hart ample opportunity to dis-
play their peculiarities. Seats are
now on sale, and the prices are 35,
50 and 75 cents.

—An important decision of fifteen
to all who reside in cities, towns or
villages, was made some time since
and a man was indicted for assault and
battery on a neighbor because he
claimed the front on one limb of a
tree. The judge said that the owner
of the land is the owner of it from
his line upward as far as he desires
to make claim to it. This being the
law, the prosecutor had the right to
the fruit on the branches extending
over his lot. This decision is im-
portant at this particular time, and
is generally misunderstood by the
people.

—There was a double wedding on
North Third in a street, on Wednesday
evening at the home of Mr. and Mrs.
P. Williams. The interested parties
were Mr. D. M. Hughes and Miss
Jeanne Williams, and Mr. Fred Mur-
phy and Miss Mollie Williams. The
ceremony was performed at 8 o'clock
by Rev. D. E. May, in the presence
of a few intimate friends of the four
young people. The brides were sis-
ters, Mr. Hughes is employed at
Wayne & Anderson's, and is a son of
Mr. Edward Hughes, and Mr. Murphy
is a son of Alderman Muzzey, of the
Second ward. The many friends of
the happy quartette wish them a
long, happy and useful life.

—On Wednesday evening Mr. Ed-
ward Dillehunt, of this city, and
Miss Adelle Haynes, daughter of Mr.
and Mrs. Hiram Haynes, were mar-
ried at the residence of the bride's
parents in Terre Haute. The offici-
ating clergyman was Rev. Bickles,
and the ceremony which was per-
formed about eight o'clock, was wit-
nessed by a half hundred friends and
relatives of the couple. The attend-
ants were Mr. Will Meyer and Miss
Laura Brodway of this city. The
bride wore a lavender silk trimmed
with oriental lace and a bird maid a
rose-colored silk with lace trimmings.
The bride party arrived here yester-
day morning, and last evening were
given a reception at the residence of
the groom's mother on West William
street. A large number of their
friends were present and extended
their congratulations. Refreshments
were served and all had an enjoyable
time. Mr. Dillehunt and wife will
make their home with his mother.

EDITORIAL NOTES.

The Illinois ex-prisoners of war have been holding a re-union this week at Bloomington.

There was a heavy snowstorm in Michigan on Tuesday, and considerable snow in northern Illinois.

Many of the tramps have gone south, where they can wear straw hats, linen dusters, and sleep out of doors.

In France well-to-do people have a happy habit of living in houses no larger than suffice to make them comfortable. Fashion does not require them to occupy more room than they can use.

It would take the United States two or three years to get into fighting trim, but the succeeding two or three years would be bad ones for the country that provoked hostilities. —[San Francisco Call.

CHAMPAIGN county will not celebrate the finding of coal with a barbecue, as intended, as the vein turned out to be next to worthless; but a thirty-thousand-dollar stock company has been formed to put down a shaft at Urbana.

The grand jury at Shelbyville returned thirty indictments against local gamblers, many of whom are said to be prominent citizens. Last spring over sixty were indicted, most of whom pleaded guilty and paid their fines and costs.

MORMON elders operating in Lawrence county, Illinois, have indeed thirteen persons to leave Dennison township for Salt Lake. The expense of the trip was defrayed by a widow named Dean, who sold her farm to carry out the transfer.

If the United States court is anxious to haul Mr. Arthur Gleason up for sentence, he might be sought in Ohio, where he is supposed to have been called in consultation as an expert by the patriotic statesmen of that section who are trying to steal a senatorship. —[Chicago Times

The Pennsylvania republicans have been assessing republican federal officeholders to such an extent that even the civil-service commissioners have found it out, and have addressed a letter to the president, calling his attention to the matter and suggesting the propriety of making an investigation, with a view of punishing all guilty parties who can be reached by the law.

The Chicago Times says: "In a mine at Streator, Illinois, held down by a mass of rock, lies a laborer who can not move hand or foot, and those who are endeavoring to rescue him are in constant danger of being crushed by the fall of the roof. Eight young children of the sufferer stand about the mouth of the mine to learn the progress made by the relief party.

Geo. W. Childs, of the Philadelphia Press, for many years one of Gen. Grant's most intimate friends, publishes some interesting reminiscences of Gen. Grant. He says that just before Gen. Grant started on his tour around the world, he heard him privately discuss very fully the electoral commission, and "that he, Gen. Grant, expected from the beginning until the final judgment that the electoral vote of Louisiana would be awarded to Tilden. He spoke of South Carolina and Oregon as justly belonging to Hayes; of Florida as reasonably doubtful, and of Louisiana for Tilden."

He Paid.

"I notice by the papers," he said, "as he waited for the froth on his beer to settle, 'that a man in a Chicago saloon fell dead just as he had finished drinking a glass of beer.'"

"I see dot same thing in der papers, too," replied the saloonist.

"Unions, wasn't it?"

"Vell, I don't think so. You see, he drank oop dot beer and said, 'Share it to me!' and der bartender he prings out his club and taps him on der head. It vvas almost asafery day somebody drops dead here!"

He laid a hickory club on der bar and looked der man full in der eye, and der beer was hardly down before it was paid for. —[Detroit Free Press.

DOUBLE MURDER.

A Mother and Her Little Daughter Found Dead in Their Beds in Kansas City—The Affair Shrouded in Mystery.

KANSAS CITY, Mo., Oct. 22.—A terrible tragedy was committed about two o'clock yesterday afternoon at the house of John Conway, a dairyman on East Eighteenth street, in a thickly populated part of the city. A neighbor entered the house and found Mrs. Conway and her daughter Kate lying dead upon a bed in an inner room, their skulls crushed and the bed deluged with their blood, which was yet warm. The girl was kneeling beside the bed, her head upon the mother's body. Marks of blood were found on the kitchen floor, and the weapon of death, a car coupling-pin, was discovered in the alley, where it had been thrown. The most plausible theory is that the murder was committed by a tramp, who perhaps had attempted a criminal assault upon the mother, and being surprised by the girl killed them both. Several persons were in the vicinity of the house, and a milkman passed through the yard, both shortly before and after the murder, but no outcry was heard at any time. The murder remains a mystery. George Myers (colored) has been arrested, but the evidence against him is very slight. Yesterday was the child's birthday, and Mrs. Bohmea, a German lady, who was invited to celebrate the event, was the person who discovered the victims. Mrs. Conway had been gagged with a handkerchief, but if the murderer intended outrage he failed to carry out his purpose.

Butter and Cheese Convention.

CHICAGO, Oct. 22.—The Convention of the National Butter and Cheese Association in this city, November 10 to 11, will be largely attended by representatives of the dairy and produce interests from all the States. Numerous applications are received daily for space from dairymen throughout the East, North and West. The Governors of food-producing States have, in response to invitations, appointed delegates to the National meeting. The Boards of Trade and Produce Exchanges throughout the States will also be represented. Arrangements have been made for special rates of transportation, the reduction being made on the return trip upon presentation of certificate of attendance. The convention will include in its representatives producers, shippers, dealers and exporters of produce.

Natural Gas Closing the Coal Mines.

PITTSBURGH, Pa., Oct. 22.—Natural gas has won its first complete victory over coal in the closing down of the Press Mine, operated by Gray & Bell, in the Thirty-fifth Ward. The introduction of natural gas into the mine and factories in that vicinity has caused the mine to be closed, and the mine being operated to its fullest capacity, with about one hundred and fifty men. President Costello of the Miners' Association, said yesterday: "This is only a harbinger of what is to come. Natural gas will gradually be introduced into every mine and factory in Pittsburgh, and as it advances coal is bound to retreat."

Spreading the Faith.

CHATTANOOGA, Tenn., Oct. 22.—Twenty Mormon Elders from Salt Lake City arrived in the city yesterday. They are the first of the larger number who will be sent South for proselyting. Since new law prohibiting polygamy were passed there are now one hundred elders in the South.

VINCENNES, Ind., Oct. 22.—Mormon elders operating in Lawrence County, Ill., have indeed thirteen persons to leave Dennison Township for Salt Lake. The expense of the trip was defrayed by a widow named Dean, who sold her farm to carry out the transfer.

Anniversary of the Meeting of Garrison.

BOSTON, Oct. 22.—The Garrison Lyceum, an organization of colored young men and women, celebrated last night the anniversary of the meeting of William Lloyd Garrison, which took place in this city fifty years ago yesterday. In addition to the colored speakers, Rev. James Freeman Clarke, Judge Thomas Russell, J. James N. Buffum, Frank B. Sanborn and Colonel T. W. Higginson made addresses. The monument to Garrison is to be erected through the efforts of the friends of the great liberator.

Burial of Charles Leland.

NEW YORK, Oct. 22.—The remains of the late Charles Leland, the hotel proprietor, were interred yesterday in Woodlawn Cemetery. The funeral services were held in the "Little Church Around the Corner," Rev. Dr. Houghton officiating. The church was crowded and nearly all the hotel-keepers in the city were present. The pall-bearers were George Smith, Thomas D. Winchester, A. J. Rogers, Dr. Putnam and Captain A. J. Rowe, well-known hotel men.

Wash. Factories to Close.

CHICAGO, Oct. 22.—At the convention of the wholesale sash, door and blind manufacturers of the Northwest at the Titcomb House yesterday it was decided to shut down all but ordered work from December 15 until February 1. The manufacturers say that this action has been taken necessary by the depression of prices, the prevailing rates being too low to make the manufacture of goods for stock profitable.

Suit Against Ex-Commissioner Loring.

BOSTON, Oct. 22.—United States District Attorney Sanger brought a suit yesterday against George B. Loring, ex-Commissioner of Agriculture, and his bondsmen to recover \$10,000, and a suit for \$30,000 against Mr. Loring alone. The suits are brought to recover money alleged to have been misapplied by the ex-commissioner while in office.

The Marshal of the District.

WASHINGTON, Oct. 22.—Marshall McMichael has made up his mind that he will give up his office as United States Marshal for the District of Columbia on the last day of this month. The present indications are that General Farnsworth, of Albany, will receive the appointment.

Explosion Causes a Bad Fire.

MEXICO, Mo., Oct. 22.—Three kegs of gunpowder exploded in the grocery store of Pettit & Lantz yesterday morning. Fifty thousand dollars' worth of property was destroyed by the fire which ensued.

American Architects.

NASHVILLE, Tenn., Oct. 22.—The American Institute of Architects began its sessions here yesterday morning, with delegates from all the chief societies in attendance.

Remarkable, If True.

YANKTON, D. T., Oct. 22.—In a game of three-ball billiards in this city Tuesday, Mr. Laurie McAfee made a run of 4,000 points—a most remarkable performance.

In the pursuit of the good things of this world we anticipate too much; we eat out the heart and sweetness of worldly pleasure by delightful thought of them. The results obtained from the use of Dr. Jones' Red Clover tonic far exceed all claims. It cures dyspepsia, and all stomach, liver, kidney and bladder troubles.
